Preamble

The Mafia Council is hereby established as a collective governing body composed of organized mafias within the Roblox game Random Mafia Shooter. The Mafia Council is established for the purpose of deliberating upon matters of mutual concern, resolving disputes and issues, coordinating affairs between member mafias, and maintaining an orderly system of collective governance.

The establishment of the Mafia Council shall not, by itself, extinguish or diminish the internal sovereignty, authority, or organizational independence of any constituent mafia. Each mafia shall retain authority over its own internal affairs except where it has expressly subjected a particular matter to the jurisdiction of the Council pursuant to this document or where an action is otherwise required by a binding decision of the Council.

This document shall constitute the fundamental governing instrument of the Mafia Council. All institutions, offices, decisions, agreements, and rules established under the authority of the Council shall conform to the provisions of this document. No exercise of Council authority shall supersede or contradict the provisions established herein except through a duly enacted amendment.

Any amendment, addition, deletion, or other alteration to this binding

document shall require approval by a four-fifths (4/5) majority of the Council of Five.

Articulus No. I

The Council shall consist of two principal bodies: the General Council and the Council of Five.

The General Council shall constitute the collective body of all mafias recognized as members of the Mafia Council. Membership of the General Council shall be managed in accordance with the latter articulus' of this document. All accepted mafias shall possess membership in the General Council without exception, except where such mafia has been formally expelled pursuant to the provisions of this document. The General Council shall deliberate and vote upon matters brought up before in accordance with this document.

The Council of Five shall constitute the senior governing body of the Mafia Council. This body shall consist of five members, each representing one of the five principal mafias possessing ownership of the Council. No singular mafia within this body will possess full or majority ownership of this council. No future amendment to this document or action may result in a temporary or permanent imbalance of ownership. The Council of Five shall possess authority to review, resolve, or otherwise act upon matters referred to it pursuant to this document. As of the release of this document, the mafias that comprise the Council of Five are AlkM, MSKD, TVOC, RAYS, and Mid2.

In addition to these two primary bodies, at any point any member of either body shall possess the authority to create a specialized body consisting of no more than seven mafias to attempt to survey and research a special issue, and then present said findings to the General Council, or Council of Five if it is an elevated issue. The authority of these bodies will be purely on an advisory level, henceforth, no actual action may be taken by any body. The creation of these bodies shall not require a voting procedure or formal approval from any individual or body. However, the creation must be announced at the next possible meeting of the General Council.

The messages sent among members of an advisory body must be made publicly available to Council of Five members. Each location where the discussion takes place, such as a group conversation, must have at least one Council of Five member within it. This Council of Five member shall be obligated to reveal screenshots of the messages sent, or message logs, upon request by a Council of Five member, upon all messages relevant to the request will be sent in the Council of Five group conversation, or a petition requesting messages signed by at least one-third ($1/3$) of the General Council, upon messages relevant to the petition request will be uploaded into a view only channel for a set period of time.

Any General Council or Council of Five member may call for a vote to dissolve an advisory body. Should the vote reach a simple majority in favor of the dissolution, the advisory body will be given twenty-four hours to hand ownership of the location where the discussion takes place, such as a group conversation, to the Acting Archivist of the Council of Five. In exception of the general petition norms, the threshold for the publicizing of this archive shall be one-fourth ($1/4$).

Articulus No. II

No singular mafia within the General Council will be granted any special status and permissions or elevated above other members.

Should a representative be unable to attend a meeting, they may appoint a temporary representative from their mafia.

Any member of the General Council may bring forth an issue for deliberation. These issues may be either minor or major in nature. The General Council shall deliberate upon each issue brought before it and shall formulate no more than three proposed solutions to the issue.

Upon the formulation of the proposed solutions, the General Council shall determine which solution shall be adopted through ranked-choice voting. Only representatives who have attended at least two-thirds ($2/3$) of the meeting at which the matter was considered shall be eligible to vote upon that matter. Due to the complexity of ranked-choice voting, all General Council votes shall be submitted privately by direct message to an Administrative Officer designated to receive such votes. Further elaboration will be made of this process in a later articulus.

In the event that a General Council vote results in a tie which cannot be resolved through the applicable ranked-choice voting procedure, the matter

shall be elevated to the Council of Five. The Council of Five shall thereafter determine the disposition of the matter through a vote of its members. A vote conducted by the Council of Five shall consist of five voters and shall therefore contain no possibility of an exact tie where the vote consists of two or three alternatives under ranked-choice voting.

Any member of the General Council may also bring forth a petition. A petition shall have no actual in-game consequence being administered as a result of its passing. A petition will have less consequence than a proposal, henceforth requiring only one-fifth (1/5) to succeed. Before collecting signatures for a petition, the creator of the petition must first verify with a Council of five member that the act is a petition rather than a proposal.

A petition does not require a direct vote to occur during a meeting. The presentation of the petition along with a screenshot of the Administrative Officer's approval shall be sufficient. All evidence shall be submitted to an Administrative Officer one (1) hour prior to the commencement of the session for screening and approval.

A petition may be struck down by a simple majority vote called by a member of the General Council or Council of Five during the same session.

A petition may also be elevated to the Council of Five for further review per the request of a Council of Five member. This elevation must be announced during the same session the petition was announced. The Council of Five shall be granted a period of twenty-four hours to discuss and vote on the enactment of the petition. The clearing and enactment of the petition shall only require a minority of two-fifths (2/5).

Articulus No. III

A matter may be referred to the Council of Five under any of the following circumstances:

1. The matter has resulted in a tie within the General Council.
2. The matter has been nominated for consideration by two members of the Council of Five.
3. The General Council has referred the matter to the Council of Five through a vote of confidence supported by at least one-third (1/3) of the General Council.
4. The matter concerns a change to the direct governance of the Mafia Council, regardless of the magnitude or importance of the proposed change.
5. A member of the Council of Five reasonably determines that the matter surpasses the abilities or appropriate jurisdiction of the General Council, provided that such member can substantiate the basis for such determination.
6. A petition has been elevated for further review after the clearing of the General Council.

Should a Council of Five representative be unable to attend a meeting, they may appoint a temporary replacement member from their mafia.

During a General Council vote upon a proposed solution, the Council of Five

may vote upon whether a proposed solution shall be replaced. Such action shall require a simple majority of the Council of Five. When a proposed solution is, without reasonable doubt, intended solely as a joke, a replacement solution shall be added automatically.

Each Council of Five member shall possess three (3) vetoes for every fifteen (15) votes. Upon the completion of each fifteen-vote period, the applicable veto allotment shall be renewed.

The five members of the Big Five shall fulfill the following roles:

1. Administrative Officer
Works alongside the two other Administrative Officers.
2. Server Manager
Responsible for ownership and management of the Council's server.
3. Financer
Responsible for providing a greater proportion of the Council's finances than the other members of the Big Five, contributing 28%, while each of the remaining Big Five members contributes 18%.
4. Archivist
Responsible for ensuring that all matters not otherwise assigned to another role, including KoS targets, are properly archived.
5. Development Consultant
Responsible for researching and proposing ideas for the improvement and development of the Council on a weekly basis. The Development Consultant shall also manage the suggestions channel and bring meaningful suggestions before the appropriate governing body.

Regardless of role, each Council of Five member will be granted Administrator permissions within the server.

A member of the Council of Five who repeatedly abuses the authority granted may be subjected to a vote of no confidence concerning their fitness to continue exercising the duties of membership in the Council of Five. The member subject to such proceedings shall not participate in the vote concerning their own removal. The removal of a Council of Five member

under this provision shall require a unanimous vote of the remaining eligible members of the Council of Five, as applicable under the governing removal provisions.

Upon the removal of a member of the Council of Five, the mafia represented by the removed member shall be granted seven (7) days to appoint a suitable replacement. If no response or suitable replacement has been provided within the prescribed period, a vote may be called to determine whether additional time shall be granted, which may be approved by a simple majority. This extension granted under this provision shall consist of an additional ten (10) days. If no response has been received upon expiration of the additional period, or an extension period has failed to have been approved, procedures shall commence for the replacement of the affected mafia.

Articulus No. IV

A mafia may be expelled from the General Council through a vote of no confidence. This vote shall require approval by at least two-thirds ($2/3$) of the General Council and Approval by at least three-fifths ($3/5$) of the Council of Five. If the vote in the General Council exceeds fifteen-eighteenths ($15/18$), the expulsion will be enacted without being brought to the Council of Five member, unless a Council of Five member elevates it. In such a case of elevation to the Council of Five, a minority of two-fifths ($2/5$) is required for the expulsion to be enacted.

A mafia may be expelled from the Council of Five through a vote of no confidence. This vote shall require approval by unanimous approval from the Council of Five, excluding the mafia being considered for expulsion, and at least nine-tenths ($9/10$) of the General Council.

Following the expulsion of a mafia from the Council of Five, a nomination period shall follow for mafias to receive nominations from other mafias of the General Council to take the seat on the Council of Five. The three highest nominated mafias shall be placed before the Council of Five. Ranked-choice voting will then be utilized to determine which mafia will take the empty seat. All current members of the Council of Five must be either neutral to or for the winning candidate. Should conflicts occur, the second-highest candidate shall be admitted instead. This candidate will also

require no Council of Five members against their initiation into the Council of Five.

Articulus No. V

The Council of Five shall appoint three (3) Administrative Officers. The Administrative Officers shall be responsible for receiving, counting, and verifying votes, confirming the accuracy of petition signatories, as well as managing other procedures relating to voting in the General Council. The authority of the Administrative Officers shall not extend to the Council of Five. At least one (1) of the three Administrative Officers shall be a sitting member of the Council of Five, and all three Administrative Officers shall be members of different mafias.

Administrative Officers are strictly prohibited from disclosing the individual vote of any voter, altering any submitted vote, altering any vote total, or otherwise interfering with the integrity of the counting process. The aggregate vote count shall be made public, and the individual votes of voters shall always remain confidential. Any Administrative Officer found violating the integrity of the process shall be permanently barred from future participation in any activities relating to the council. Such status shall be named an excommunicado. A simple majority by the Council of Five is all that is necessary to designate an individual as guilty and a recipient of these consequences. The Council of Five may opt to set a specific period the excommunicado takes effect or set it as permanent.

The Council of Five may, by unanimous vote, designate an individual found responsible for a severe case of vote alteration as Kill on Sight (KoS) for a specified period. A KoS designation shall not exceed twenty-one (21) days. During the period of a valid KoS designation, all mafias belonging to the Council shall be obligated to kill the designated individual within the game. Upon expiration of the KoS period, the designation shall cease to have effect. The excommunicado will remain until the expiration date.

Voting and deliberations of the Council of Five shall occur within a private group conversation. Members of the Council of Five are strictly prohibited from disclosing the vote of another member. A member found to have violated this prohibition may be subject to removal pursuant to the applicable provisions of this document. All members of the Council of Five shall, prior to casting a vote, read and consider every argument presented concerning the matter under deliberation. Members shall consider the complete available perspective before exercising their voting authority.

Voting by the Council of Five shall close twenty-four (24) hours following the adjournment of the meeting at which the matter was discussed or the timestamp at which the final sentence relating to the matter was made within the private Council of Five group conversation. The latter of the two shall be applied.
